SUMMARY

B.Tech Computer Science graduate (2026) with a focus on cybersecurity. Spent a year as a security intern running vulnerability scans and security checks, and have built several projects of my own, including a Python intrusion detection system, a billing and inventory system (web and desktop), and an Android translation app.

SKILLS

Security: Vulnerability Assessment, SQL Injection Testing, Parameter Tampering, WAF, Malware Scanning
Tools: Nmap, Zenmap, Nessus, Kali Linux
Programming and Databases: Python, Tkinter, MySQL, Shell Scripting
Web: WordPress
Platforms: Linux (Kali, Ubuntu), Windows, AWS
Other: AI-Assisted Development

WORK EXPERIENCE

Cybersecurity Intern, Right Turn Security (Remote)
Feb 2025 - Feb 2026

- Ran 50+ vulnerability scans with Nmap, Zenmap and Nessus and flagged the critical security issues.
- Tested for SQL injection and parameter tampering, then wrote up each finding with steps to fix it. These fixes improved system hardening by 35%.
- Looked after a WordPress site, keeping 100% uptime and a PageSpeed score of 90+.
- Set up a WAF, malware scanning and brute-force protection.

Campus Ambassador, Internshala (Remote)
Jul 2024 - Sep 2024

- Promoted Internshala programs and ran workshops to spread awareness about internships among students.

PROJECTS

Network Intrusion Detection System (NIDS)

- Built on my own in Python. It watches network traffic and flags suspicious activity as it happens, using packet analysis and anomaly detection.

Billing and Inventory System for Rahul Foam and Furniture House (AI-Assisted)
Live: https://n3rah.onrender.com

- Web app for tracking stock, managing orders, billing and generating reports. Multi-tenant, so each business has its own separate data. Built with the help of AI coding tools.
- Also built a desktop version of the system using Python and Tkinter.

On-Screen Translation Android App (AI-Assisted)

- Android app that translates text shown on the screen. Built with the help of AI coding tools.

EDUCATION

B.Tech, Computer Science and Engineering
I.T.S Engineering College, Greater Noida, Uttar Pradesh | 2022 - Jun 2026

High School and Intermediate (PCM)
New Lancers Senior Secondary School | 10th: 89%, 12th: 87% | 2019 - 2021

CERTIFICATIONS AND ACHIEVEMENTS

1st Place, GLB 4.0 Hackathon | Introduction to Cybersecurity | Basics of Firewall | Introduction to Kali Linux

ADDITIONAL INFORMATION

Soft Skills: Teamwork, Leadership, Problem-Solving, Communication
Languages: English (Fluent), Hindi (Fluent)
